WEBSITE NOTES 06.17.21

1. Current Homepage should become our Splashpage
   a. Experiment with size of LOGO: we would like to see the size decreased by 20%
2. Make new Homepage with the following changes:
   a. Move menu to top left and make it vertically stacked with the following options:
      Home
      Vision
      What we do
      Who we are
      Contact
      News [hidden]
      *Menu to be on every sub-page, in the same location with current page in bold
   b. Add a small Gala's Table logo to the top left on every page (other than the splashpage) above the Menu.
   c. Put the rotating quotes in the center of the page (they can stay static for 5 seconds, then change). Align top of text with top of Menu. Decrease spacing between lines of text.
   d. Try a couple of new placements for the eyeball: we would like to see one option with it centered under the quote and a second option with it placed to the bottom right of the quote.
   e. We would like to try the Eyeball functioning as a next button on every page, and when clicked, brings the user to the next consecutive page, ie. from the Home page to the Vision page, from the Vision page to the What We Do page, etc. Vary up the different eyeballs on each page.
3. Vision page
   a. Menu on left top as mentioned above, with Vision in bold.
   b. Add a small Gala's Table logo to the top left above the Menu, as mentioned above.
   c. Align top of text with top of Menu. Decrease spacing between lines of text.
   d. Eyeball location/function same as Homepage (functioning as a next button)
4. What We Do page
   a. Menu on left top as mentioned above, with What We Do in bold.
   b. Add a small Gala's Table logo to the top left above the Menu, as mentioned above.
   c. Align top of text with top of Menu. Decrease spacing between lines of text.

    d. Eyeball location/function same as Homepage (functioning as a next button)

    e. Remove our Process

    f. Update text (we will provide)

    g. Change "Our Focus" to "What We Do"

5. Who We Are page

    a. Menu on left top as mentioned above, with Who We Are in bold.

    b. Add a small Gala's Table logo to the top left above the Menu, as mentioned above.

    c. Align top of text with top of Menu. Decrease spacing between lines of text.

    d. Eyeball location/function same as Homepage (functioning as a next button)

    e. Move "Our Experience" to this page and change section title to "Who We Are"

    f. Move "Our Name" text to this page

    g. Add "Credits" text (to be provided) to this page

    h. Tighten space between sections

6. Contact Page

    a. Menu on left top as mentioned above, with Contact in bold.

    b. Add a small Gala's Table logo to the top left above the Menu, as mentioned above.

    c. Layout eyeballs exactly how they are in provided pdf, in the center column of page.

    d. Underneath center column, put our contact email, and social media handles (stacked)

7. NEW (but hidden) News Page

    a. This will be a *new* page on the site, also in the Menu where we will be able to highlight our work, write blog posts, or whatever.

    b. Aside from content, there should be a way for users to sign up with their email address to receive updates from us.
